NON-SKID SLEEVES
CRUTCH TIP GLIDES

### Clear Non-Skid Sleeves

IEC's transparent *non-skid sleeves* stretch to fit over various leg sizes, in both round and square shapes. For square legs increase size by 1/4 inch. The flexible sleeve will form to the square leg. The non-skid bottom of the sleeve will reduce scratching, noise, rust and stains. Typical applications are chairs, tables, desks, stools, bar stools, walkers, crutches.

### Rubber Crutch Tip Glides

These *rubber crutch tip glides* are available in black (-B), white (-W) and gray (-G). They are non-skid; white and gray types are non-marring. They are useful for crutches, walkers, canes, tables, chairs, etc. For hollow legs, we recommend using a washer in the bottom of the glide to keep the leg from cutting through the glide. Measure the outside diameter of leg to select the correct glide size.
